

Malpas Village 20 MPH Speed Restriction Introduction

2.5 Plan showing location of monitoring points with recorded mean speeds.

4. Validation Recommendations

4.1 The core economic centre of High Street has been included because a section overlaps with a school 20mph limit further along High Street.

4.2 The section of B5069 Chester Road outside the primary school is due to have parking restrictions applied. The validation team are concerned that will lead to increased vehicle speeds; with exiting mean speeds of 29.3mph there is concern that this section will not meet the school criteria.

4.2.1 The validation team agreed to omit Chester Road and Greenfields Lane and to re-evaluate after parking restrictions have been implemented.

4.2.2 If the criteria are met then the 20mph limit can be extended within year four of the 20mph speed limit programme.

4.3 The validation team agree with the recommendations.

5. Recommendations

5.1 Introduce 20mph speed limits on the roads identified in Section 3 and 4.

5.2 Location plan of roads included in the proposed scheme.
