

# Community Champions

## Key messages to share with communities

- [Three new COVID-19 local testing sites are opening in the borough.](#)
- [Cheshire West and Chester is stepping up to support families this half-term.](#)
- [The latest restrictions in Cheshire West and Chester, including a set of FAQs.](#)

Don't forget, there's a resources section on the Council's website for you to download the latest social media graphics and posters and access videos.

## Coaching invitation from Citizens Advice

During these challenging times, it's more important than ever we're able to help people who suddenly find themselves in situations they've never been in before and don't know where to turn to.

The workload of Citizens Advice is ever increasing so it has put together some simple, free online coaching to help community champions' signpost and connect people to local advice, information and support.

There's no test involved and all those who complete it will receive a certificate. It takes between one to two hours and can be carried out in sections or all in one go.

- [Take part in volunteer connector coaching](#)

## Introduce others to the community champions' network

We now have more than 300 community champions, but please ask other people and organisations to get involved as we want as many people as possible to join this network.

- [Become a community champion](#)

We'd love to hear how our community champions are playing their part. If you've got any photos or videos you'd like to share, please post them on our Inspire Cheshire West website as these will no doubt encourage others to get involved.
