Help for elderly people

Although you may think that elderly people are particularly at risk from crime, statistically this isn't true. Nevertheless, they can often feel very vulnerable. There are things you can do to protect elderly relatives or neighbours and make them feel safer. You could fit locks, door viewers and chains. Just giving your time can make them feel safer, especially if they live alone.

- Protect your possessions by marking them
- Never keep large amounts of money in your home
- Keep an eye out for neighbours and they will keep an eye out for you
- Never give bank details away over the phone
- Don't let in strangers at the door, they may not be who they say they are and always ask for some form of identification
- Join a Home Watch scheme
