

## LOCKDOWN IN MALPAS..... SPRING 2020

COVID-19 has arrived it's plain!  
We have to stay in, which is a bit of a pain  
But reading the facts, it's the right thing to do  
To keep it from spreading, to us and to you.

DAY 1 was a novelty, just watching TV  
That soon became boring, so it's not to be!  
Now on DAY 5, friends are starting to chat  
Using their Facebook, and sometimes Whatsapp!

We've watched people singing, and telling a joke  
And even cooking breakfast.....I know that Scots bloke!

Chopping his fruit, to put in his dishes  
Waiting to say, 'Good Morning' to the missus.

At 8 in the evening, we all go and stand  
Out on our doorsteps, clapping our hands.  
Applauding the NHS, and Community Links too  
Thanking them both, for all that they do.

Some narrow minded people, who live in the UK  
Have been queuing in shops, and not keeping away  
They've bought pasta galore, and toilet rolls too  
They're stacked to the ceiling, behind the white loo!

We've another 2 months, or maybe it's more  
To stay behind doors....now it's the law!  
So keep entertaining us, I'm a great fan  
Let's stay connected, as much as we can.

We all said we'd all party, when we get the all clear  
But let's drink to the families, who have lost someone dear  
And 'Cheers!' to the medics, and supermarket staff  
Not forgetting our Facebook friends, who gave us a laugh!
